

**Updating seminar for therapists in audio-psycho-phonology  
Verona (I), 10 – 11 – 12 June 2022**

## **Tomatis Method**

### **Seven main topics**

- Interpretation of the listening test from the following point of view: linguistic, psychological, musical and psychomotor
- How to work with Down Syndrome children and adults
- Tomatis method for pregnant women
- Listening education in tinnitus patients
- The Tomatis method for singers and musicians. Special adjustments of the Electronic Ear
- Electronic Ear and sport
- The Tomatis method after Alfred Tomatis and state of the art 2022
- Free questions

During the seminar it will be possible to speak, sing and play your music instrument with your own listening changing according to acoustic parameters of different languages and see what really happens (German, Italian, French, etc. way to speak, sing and play an instrument).

Also, different acoustic parameters on the Electronic Ear are useful to help acoustic and motoric aspect of speaking, singing and instrument playing. We can use Italian, German, Russian, Hebrew, French and other languages' parameters to help: musicality, singing and playing in tune, arm weight and pressure in playing string instruments, increased speed in violin fingering and more...
